

COMMUNITY SOLUTIONS: THE AGROECOLOGY OF DEVELOPMENT IN AFRICA

Symposium and Poster Session – May 7, 2015

Development in Africa can take on many faces. Join us for an afternoon of discussion and education around the progress made and future barriers toward sustainable development in Africa. As a member of the UW community, join the discussion of African development by showcasing your research related to food security, public health, environment, social justice, and education on the African continent.

To facilitate productive cross-campus collaboration, we have scheduled a **Africa's Changing Face of Development** poster session for May 7th. Posters will be available for viewing in conjunction with a symposium, featuring four distinguished speakers visiting from South Africa, Kenya, and Uganda (see attached poster for bios).

Panel Discussion:

COMMUNITY SOLUTIONS: THE AGROECOLOGY OF DEVELOPMENT IN AFRICA

DeLuca Forum, Wisconsin Institutes for Discovery, May 7th 4:30 – 5:30

Poster session:

Africa's Changing Face of Development

Atrium, Wisconsin Institute for Discovery, Poster Viewing and Judging from 2:30 to 4:00pm and Post-Discussion Viewing

Broad poster categories include food security, public health, environment, education, social justice and other topics related to development in Africa. Within these categories, we welcome a wide range of topics from all disciplines. Examples of poster topics include, but are not limited to: sustainable supply chain issues, food system economics, soil health and nutrient cycling, child nutrition and health, plant breeding, urban agriculture, farm to school or institution, gender in development, fair trade, and food transportation.

Posters are welcome from all interested presenters, but only current students presenting posters are eligible for the *cash prize* competition. For poster consideration please submit abstracts of no longer than 300 words to kivancic@wisc.edu by **due May 1, 2014**.
