FY16 Wisconsin Specialty Crop Block Grant Program
Request for Proposals (RFP) & Grant Manual

I. General Information

CDFA (CATALOG OF FEDERAL DOMESTIC ASSISTANCE) 10.170

In anticipation of receiving Specialty Crop Block Grant Funds from the USDA, the Wisconsin Department of Agriculture, Trade and Consumer Protection (WI DATCP) is announcing a competitive solicitation process to award USDA Specialty Crop Block Grant Program (SCBG) funds for projects that enhance the competitiveness of Wisconsin’s specialty crop industries. Selected applications will be included into one Wisconsin state plan and submitted to the USDA for final approval.

A. Available Funds and Project Duration

Wisconsin Specialty Crop Block Grant program funds will be distributed to the specialty crop industry through a competitive review process. Competitive grants will be awarded for projects between **\$10,000** and **\$100,000**. SCBG grant funds will be awarded for projects up to **2 years, 8 months** in duration and must conclude by **June 30, 2019**. Applications that build on a previously funded SCBG project are welcomed. In such cases, the application should clearly indicate how the project complements but do not duplicate previous work.

More than one project application per applicant may be submitted. Projects may be submitted by a single organization or for combined specialty crop efforts. Multi-state projects are also eligible to address a growing need for solutions to problems that cross state boundaries. A Multi-State project is a project proposed to two or more states requesting that the states fund separate budget items. Multi-State project applicants should clearly describe the multi-state nature of their project and identify the other states from which funds will be requested. Contact the SCBG Program Manager for additional application instructions on multi-state proposals.

B. Application & Funding Timing

WI DATCP is requesting proposals for the fiscal year 2015 grant cycle in anticipation of USDA releasing SCBG funds to states. Funds will be disbursed when program applications have been submitted and approved by both WI DATCP and the USDA. Selected grant projects will not be able to begin project activity and incur eligible project expenses until approval has been received and contracts have been signed between WI DATCP and the grantee. Anticipated project timelines includes a start date no earlier than **November 1, 2016** and completion no later than **June 30, 2019**.

Timeline

RFP is released	February, 2016
Optional grant writing workshops for applicants	February/March 2016
Applications due to WI DATCP	April 15, 2016
Applications scored and selected by review committee	April/May 2016
Selected applications notified by WI DATCP	June 2016
State application submitted to USDA	July 2016
Anticipated USDA Approval	October 1, 2016
Approval Letters Issued by WI DATCP	October 2016
Project start date	November or December, 2016
All projects conclude	June 30, 2019

C. Eligible Projects – Program Priority Areas

- To be eligible for a grant, the project(s) must solely enhance the competitiveness of Wisconsin grown specialty crops. Priority will be given to projects that have the potential to provide solutions that lead to measurable benefits to specialty crop growers and consumers.

For FY16, WI DATCP will accept applications pertaining to the following priority areas:

2016 Funding Priorities

- Environmental sustainability, pest and disease control, & varietal improvement
- Development of food safety practices that assist with compliance of the Food Safety Modernization Act
- Increasing the demand for and supply of Wisconsin specialty crops
- Industry Innovation in production, processing, and packaging
- Education for producers, processors, and the general public to increase production, sales, or consumption of Wisconsin specialty crops

SCBG funds must be used for projects that enhance the competitiveness of specialty crops ONLY or that benefit a specialty crop industry as a whole. No other crops may benefit from the project. **Grant funds will not be awarded for projects that provide profit to or directly benefit a specific commercial product or a single organization, institution, or individual.** Projects must include a plan to disseminate project results to the targeted industry.

D. Eligible Specialty Crops

Specialty crops are defined in law as “fruits and vegetables, tree nuts, dried fruits, horticulture, and nursery crops, including floriculture.” The USDA maintains a more comprehensive list of eligible specialty crops on its website that will be updated as USDA gets new questions. See:

www.ams.usda.gov/scbgp

E. Ineligible Commodities

The USDA maintains a list of ineligible crops on its website. See: www.ams.usda.gov/scbgp

F. Eligible Applicants

Proposed projects must include documented support by the impacted specialty crop growers or industry sector. This may be illustrated by support from industry sector organizations or by individual letters of support from growers or processors.

Proposals will be accepted from non-profit organizations, producer organizations, government agencies, universities, and other organizations involved in Wisconsin agriculture. Individual producers, for-profit businesses, or commercial entities may only apply if their project can demonstrate a significant benefit to the specialty crop industry regionally, statewide or beyond. Proposals may involve collaborations or partnerships between producers, industry, academia or agricultural organizations. Applicants may cooperate with any public or private organization.

Projects cannot include non-specialty crops even if other funding is used to pay for the non-specialty crop portion of the project.

All applicants must have a Data Universal Numbering System (DUNS) number. Data Universal Numbering System (DUNS) number means the nine-digit number established and assigned by Dun and

Bradstreet, Inc. (D&B) to uniquely identify business entities. A DUNS number may be obtained from D&B by telephone (currently 866-705-5711) or the Internet (<http://www.dnb.com/get-a-duns-number.html>).

G. Eligible Expenses - Allowable Costs

This is a reimbursement grant. Grant funds will be paid to recipients for approved expenditures on a **reimbursement basis**. Grant recipients must have the financial capability to pay project expenses up-front, and may request reimbursement monthly.

All costs must be associated with project activities that enhance the competitiveness of specialty crops. See 2 CFR Part 225 for further guidance on cost principles (<https://www.gpo.gov/fdsys/granule/CFR-2012-title2-vol1/CFR-2012-title2-vol1-part225/content-detail.html>).

Eligible project expenses include, but are not limited to:

- **Compensation for Personnel Services**
 - Salaries, wages and fringe benefits
- **Consultant Services or Subcontractors**
 - Costs of professional and consultant services rendered by persons who are members of a particular profession or possess a special skill.
- **Materials and Supplies**
 - Costs incurred for materials, supplies, and fabricated parts necessary to carry out the grant project. Purchased materials and supplies shall be charged at their actual prices, net of applicable credits.
- **Travel**
 - Mileage reimbursement following federal requirements for reimbursement rates, vehicle rental, or air fare.
- **Equipment and other Capital Expenditures**
 - Lease/rental or depreciation costs
- **Other Miscellaneous Costs**
 - For example: telephone, meetings, publications, etc.

H. Ineligible Expenses

Unallowable costs/expenses include:

- **Capital Expenditures for Equipment, Buildings, and Land**
 - Equipment is any single item which costs \$5000 or more and has a depreciation of more than one year.
- **Bad Debts**
- **Lobbying, Political and Other Governmental Activities**
- **Advertising and Public Relations costs**
 - Costs designed solely to promote the image of an organization, general logo, or general brand rather than eligible specialty crops are unallowable.
 - A promotional campaign to increase sales of “XYZ Grown” Watermelon is acceptable while increasing brand awareness of “XYZ Grown” generically is not.
 - Promoting tomatoes while including an organization’s logo in the promotion is acceptable, while generally promoting an organization’s logo is not.

- **Entertainment and Alcohol**

- Alcoholic beverages except when the costs are associated with enhancing the competitiveness of specific specialty crops and prior approval is given from the awarding agency.
- Amusement, diversion, and social activities and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities) are not allowed.
- Food for meals, snacks and general refreshment for conferences, trainings or entertainment.

- **Travel Costs**

- Travel expenses related to overnight accommodations such as hotels and meals or per diem expenses

- **Other Expenses**

- Contributions to a contingency reserve or any similar provision.
- Fines, penalties, damages, and other settlements resulting from violations (or alleged violations) of, or failure of the governmental unit to comply with, Federal, State, local, or Indian tribal laws and regulations.
- Organized fund raising, including financial campaigns, solicitation of gifts and bequests, and similar expenses incurred to raise capital or obtain contributions regardless of the purpose for which the funds will be used.
- Costs of goods or services for personal use of the governmental unit's employees regardless of whether the cost is reported as taxable income to the employees.
- Costs of investment counsel and staff and similar expenses incurred to enhance income from investments.
- Grant funds shall supplement the expenditure of State funds in support of specialty crops grown in that State, rather than replace State funds.
- Indirect (administrative support) costs & tuition.

I. Matching Funds

While matching funds are encouraged, they are not required.

J. Federal Cost Principles

Federal cost principles are regulations based on organization type used to determine allowable costs and ensure consistent treatment of costs. Applicants are responsible for identifying the federal cost principles appropriate to their organization and consistent application of cost principles to the SCBGP grant funds. Applicants are responsible for ensuring contractors or consultants comply with applicable federal cost principle requirements.

Projects awarded funding in the 2016 SCBG will begin after the implementation of the Office of Management and Budget's Uniform Guidance ("Supercircular"). State, local or tribal governments, non-profit organizations, colleges and universities will be subject to 2 CFR 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards. For-profit organizations will be subject to 48 CFR Subpart 31.2. All organization types are subject to 7 CFR 3015 and 7 CFR 3052.

K. Record Requirements

The grantee will be responsible for setting up and maintaining a project file that contains all records of correspondence with WI DATCP, receipts, invoices and copies of all reports and documents associated with the project. The grantee shall retain all data and other records relating to the acquisition and performance of the Grant Award Agreement for a period of three years after the completion of the agreement. All records shall be subject to inspection and audit by state personnel at reasonable times. Upon request, the grantee shall produce a legible copy of any or all such records.

L. Monitoring

WI DATCP reserves the right to perform site monitoring visits to any and all grantees to ensure that work is progressing within the required time frame and that fiscal procedures are followed accurately and appropriately. Monitoring includes both financial and program information, as well as site visits.

M. Liability

WI DATCP will not be held liable for any costs incurred by any firm for work performed in the preparation and production of a proposal, nor for any work performed prior to the formal execution of the contract.

N. Open Records

Proposals submitted for funding and all related contracts and reports shall be subject to disclosure under the Public Records Law. The grant applicant or recipient must clearly mark any information deemed a 'trade secret' that is included in the proposal, progress reports or final reports as "Confidential – Trade Secret – Not For Public Disclosure" at the time of submission. The Department shall notify the Grant Recipient if a public records request is made for the information claimed to be trade secret by the Grant Recipient. The Grant Recipient may then proceed to obtain judicial protection for the information. Such information may be kept confidential by the Department only as authorized by law (see s. 19.36(5), Wis. Stats.)

O. Reporting of Total Compensation of Executives

If you meet both of the criteria listed below, you will be required to report the names and total compensation of each of the five most highly compensated executives of your organization/ business for the preceding completed fiscal year upon receipt of your grant contract:

In your preceding fiscal year, your entity received--

- 80% or more of its annual gross revenues from Federal procurement contracts (and Subcontracts) and Federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320; and
- \$25,000,000 or more in annual gross revenues from Federal procurement contracts (and subcontracts), and Federal financial assistance subject to the Transparency Act (and sub-awards)

The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at <http://www.sec.gov/answers/excomp.htm>.)

P. Other Considerations

All proposals submitted in response to this RFP become the property of WI DATCP. WI DATCP reserves a royalty-free, nonexclusive and irrevocable license to reproduce, publish, otherwise use, and to authorize others to use materials produced under this grant agreement.

WI DATCP also reserves the right to:

- Post funded proposals or final reports to the WI DATCP website
- Reject any or all proposals received
- Waive or modify minor irregularities in proposals received after prior notification and agreement of applicant
- Use any or all ideas submitted unless those ideas are covered by legal patent or proprietary rights
- Clarify the scope of this program, within the RFP requirement and with appropriate notice to potential applicants, to best serve the interests of the State of Wisconsin
- Amend program specifications after their release, with appropriate written notice to potential applicants
- Require a good faith effort on the part of the project sponsor to work with WI DATCP subsequent to project completion to develop or implement project results in Wisconsin
- Withhold any payments when contract conditions are not met

II. Application Instructions & Requirements

A. Required Application Format

Applications must be completed using the application template which is posted on the WI DATCP website - <http://datcp.wi.gov> search *Specialty Crop Block Grant 2016*. If you cannot access the site or have trouble filling out the application, please contact the SCBG Manager at juli.speck@wi.gov or 608-224-5134.

Proposals will only be accepted using the DATCP application saved as a word document. No PDF documents

- Proposals should not exceed 10 pages in length. (Does not include attachments or letters of support.)
- WI DATCP must receive an electronic copy of the proposal by the stated deadline – **5:00 p.m. on Friday, April 15, 2016.**

Application includes:

- 1. Cover Page** – Each application must include the completed Application Cover Page, including contact information for the applicant administering the project under contract with WI DATCP, a title that describes the project, DUNS number, and check appropriate boxes. Please use the form provided. Do not modify its format and do not make your own form.
- 2. Project Description** – Provide a **one-sentence** description including the following information:
 - *The name of the applicant*
 - *A concise outline the project's outcome(s), and*
 - *A description of the general tasks to be completed during the project period to fulfill this goal.*

FOR EXAMPLE:

The ABC University will mitigate the spread of citrus greening (Huanglongbing) by developing scientifically-based practical measures to implement in a quarantine area and disseminate results to stakeholders through grower meetings and field days.

3. Project Purpose –

- Provide the specific Issue, problem or need that the project will address
- Provide a listing of the objectives this project hopes to achieve

4. Project Beneficiaries –

- Who are the beneficiaries of the project?
- How many beneficiaries will be impacted – provide an estimated number?

5. Project Continuation Information - If your project is continuing the efforts of a previously funded SCBGP project, address the following:

- Describe how this project will build upon and differ from the previous project
- Summarize the outcomes (or potential outcomes) of the previous efforts (3-5 sentences)
- Provide lessons learned on potential project improvements
 - What was previously learned from implementing this project, including potential improvements?
 - How are the lessons learned and improvements being incorporated into the project to make the ongoing project more effective and successful at meeting goals and outcomes?
- Describe the likelihood of the project becoming self-sustaining and not depending on grant funding indefinitely

6. Other Project Funding - The SCBG will not fund duplicative projects. If you submitted this project to a funding source other than the SCBG for funding and/or the project is currently funded through another source, identify the funding and describe how your project differs from or supplements the other funded project or how you will modify this project or return funds for any duplicative efforts.

7. External Project Support - Describe the specialty crop stakeholders who support this project and why (other than the applicant and organizations directly involved in the project implementation).

8. Expected Measurable Outcomes – *New for 2016, each project submitted must include at least one of the outcomes listed below, and at least one of the indicators listed underneath the selected outcome(s). If there are multiple sub-indicators under the selected indicator, select at least one.*

Program Activity: Marketing and Promotion

Outcome 1: To enhance the competitiveness of specialty crops through increased sales (mandatory for all marketing/promotion projects)

Indicator: Sales increased from \$ _____ to \$ _____ and by _____ percent, as result of marketing and/or promotion activities

This requirement means that an established baseline of sales in dollars should already exist at the time of application. For projects that do not already have a baseline of sales in dollars, one of the objectives of the project must be to determine such a baseline in order to meet the requirement to document the value of sales increases by the end of the project.

Program Activity: Research, Innovation, and Education

Outcome 2: Enhance the competitiveness of specialty crops through greater capacity of sustainable practices of specialty crop production resulting in increased yield, reduced inputs, increased efficiency, increased economic return, and/or conservation of resources.

Indicators:

1. Numbers of plant/seed releases (i.e., cultivars, drought-tolerant plants, organic, enhanced nutritional composition, etc.) _____
2. Adoption of best practices and technologies resulting in increased yields, reduced inputs, increased efficiency, increased economic return, and conservation of resources (select at least one below).
 - a. Number of growers/producers indicating adoption of recommended practices _____
 - b. Number of growers/producers reporting reduction in pesticides, fertilizer, water used/acre _____
 - c. Number of producers reporting increased dollar returns per acre or reduced costs per acre _____
 - d. Number of acres in conservation tillage or acres in other best management practices _____
 - e. Number of habitat acres established and maintained for the mutual benefit of pollinators and specialty crops _____

Program Activity: Research, Innovation, and Education

Outcome 3: Enhance the competitiveness of specialty crops through more sustainable, diverse, and resilient specialty crop systems

Indicators:

1. Number of new or improved innovation models (biological, economic, business, management, etc.), technologies, networks, products, processes, etc. developed for specialty crop entities including producers, processors, distributors, etc. _____
2. Number of innovations adopted _____
3. Number of specialty crop growers/producers (and other members of the specialty crop supply chain) that have increased revenue expressed in dollars _____
4. Number of new diagnostic systems analyzing specialty crop pests and diseases _____
[Diagnostic systems refer to, among other things: labs, networks, procedures, access points.]
5. Number of new diagnostic technologies available for detecting plant pests and diseases. _____
[The intent here is not to count individual pieces of equipment or devices, but to enumerate technologies that add to the diagnostic capacity.]
6. Number of first responders trained in early detection and rapid response to combat plant pests and diseases _____
7. Number of viable technologies/processes developed or modified that will increase specialty crop distribution and/or production _____
8. Number of growers/producers that gained knowledge about science-based tools through outreach and education programs _____

Program Activity: Food Safety Development

Outcome 4: Enhance the competitiveness of specialty crops through increasing the number of viable technologies to improve food safety

Indicators:

1. Number of viable technologies developed or modified for the detection and characterization of specialty crop supply contamination from foodborne threats _____
2. Number of viable prevention, control and intervention strategies for all specialty crop production scales for foodborne threats along the production continuum _____

3. Number of individuals who learn about prevention, detection, control, and intervention food safety practices and number of those individuals who increase their food safety skills and knowledge _____
4. Number of improved prevention, detection, control, and intervention technologies _____
5. Number of reported changes in prevention, detection, control, and intervention strategies _____

Program Activity: Food Safety Development

Outcome 5: Enhance the competitiveness of specialty crops through increased understanding of threats to food safety from microbial and chemical sources

Indicators:

Number of projects focused on:

1. Increased understanding of fecal indicators and pathogens _____
2. Increased safety of all inputs into the specialty crop chain _____
3. Increased understanding of the roles of humans, plants and animals as vectors _____
4. Increased understanding of pre-harvest and post-harvest process impacts on microbial and chemical threats _____
5. Number of growers or producers obtaining on-farm food safety certifications (such as Good Agricultural Practices or Good Handling Practices) _____

Program Activity: All

Outcome 6: Enhance the competitiveness of specialty crops through enhancing or improving the economy as a result of specialty crop development.

Indicators:

1. Number of new rural careers created _____
2. Number of new urban careers created _____
3. Number of jobs maintained/created _____
4. Number of small businesses maintained/created _____
5. Increased revenue/increased savings/one-time capital purchases (in dollars) _____
6. Number of new beginning farmers who went into specialty crop production _____
7. Number of socially disadvantaged famers who went into specialty crop production _____

Once you have chosen the outcome and defined the indicator, explain how you will collect the required data to report on the outcome and indicator. (Grower, participant or beneficiary web survey, written evaluation after educational presentation, identification through one on one personal meetings, etc.)

9. Work Plan – The following information should be included in this section.

- Identify the activities necessary to accomplish the project objectives.
- Indicate who will do the work of each activity and how they are qualified to do this work. If collaborative arrangements or subcontracts are used, make sure you specify their role and responsibilities in performing project activities.
- Include timelines for accomplishing each activity. Make sure to include the months/year(s) each activity will occur.
- Include plan for disseminating project results as detailed in *Expected Measurable Outcomes* (Section 5 above)

The work plan section may be in any format you choose as long as it contains the appropriate information. We find that the table provided in the application is a good way to include all necessary items. Additional information is not necessary if using the table.

10. Budget Summary & Narrative -The budget should contain a table summary and a narrative for each project cost item.

- **Personnel** – Persons employed by the grantee organization to work on the project should be listed in this category. The duties must be directly related to the project application. For each paid project participant, indicate title, percent of full time equivalents to be spent on the project (FTE) or number of hours to be spent on grant, and corresponding salary for the FTE. Include an explanation of each individual’s duties/responsibilities for the project. Individuals not employed by your organization should be included under *Contractual*.
- **Fringe Benefits** - Provide the rate of fringe benefits for each project participant’s salary described in the personnel section.
- **Equipment** – Equipment is considered items of property having a useful life of more than one year and an acquisition cost of \$5,000 or more per item. If the cost is under \$5,000, then include these items under supplies. Only equipment rental or depreciation can be charged to the grant. Anything classified as an equipment purchase is **not** an allowable cost for this grant program.
- **Supplies** – List all items with acquisition cost under \$5,000. This includes anything from office supplies and software to educational or field supplies. **Be specific**, list all items you intend to purchase. For non-typical materials & supply items, include a brief narrative of how the items fit with the project.
 - For example, *Office supplies such as pens, paper, toner, etc - \$500*
Gardening supplies such as soil and fertilizer - \$500
- **Travel** – Mileage reimbursement following federal requirements for reimbursement rates, vehicle rental, or air fare are allowed.
 - Hotel, meal and other per diem costs are not eligible for reimbursement.
 - Travel costs for individuals not employed by the applicant organization must be listed under *Contractual*.
 - Travel costs are limited to those allowed by formal organizational policy; project participants must use the lowest reasonable commercial airfares for air travel. For recipient organizations that have no formal travel policy and for-profit recipients, allowable travel costs may not exceed those established by the Federal Travel Regulation, issued by GSA, including subsistence rates prescribed in those regulations. This information is available at <http://www.gsa.gov>.
 - Provide the following information for each trip:
 - Trip destination
 - Purpose of trip
 - Type of expense (airfare, car rental, mileage, etc.)
 - Number of days traveling
 - Estimated number of miles and mileage rate
 - Estimated ground transportation costs
 - Number of travelers claiming expense
 - Total funds requested for each expense
- **Contractual** – Provide a short description of the services each contract covers and include the flat rate fee OR the total hourly rate fee for each contract.
 - Contractual hourly rates cannot exceed GS-15 step 10 for your area. To access the GS-15 step 10 rate, visit the website below and click on 2015 General Schedule and Locality Pay Tables. <http://www.federaljobs.net/salarybase.htm>. If contractor employee and consultant hourly rates of pay exceed the salary of a GS-15 step 10 Federal employee in your area, provide a justification for the expenses.

- You must indicate that all contractual work on the grant will follow your organization's procurement practices.
- **Other** – Provide a detailed description of all other direct costs such as:
 - Conferences/Meeting - Costs of holding a conference or meeting are included in this category. *Food/refreshments for conferences/meetings are not eligible costs for this grant. Only conferences with direct impact on specialty crop producers, processors or intended grant beneficiaries are allowed.
 - Communications - Mailings, postage, express mail, faxes, and telephone long distance charges. Provide the estimated cost for this category. Note that you must prove these expenses are for grant project only and do not include costs for non-grant expenses. For example, if phone expenses are charged by a staff member who also uses the phone for non-grant activities, you must prove that the expenses charged to the grant do not include those activities. Just estimating a % of use is not acceptable.
 - Speaker/Trainer Fees - Provide the amount of the speaker's fees and a description of the services they are providing.
 - Publication Costs - Provide the estimated cost of printing of brochures and other program and outreach materials.
 - Data Collection - Provide the estimated cost of collecting performance data to measure the project outcome measures.
- **Project Income** - Project income is not allowed. If your project cannot be implemented without generating income, do not apply.
- **Matching Funds** –are not required. If you wish to show match in your budget, add an additional column in the budget table on the application or add it to the narrative section on the application.

11. Letters of Support – should be used to assist in demonstrating your external support for your project. Be sure to request letters of support from beneficiaries early in your application process, especially if it is an organization such as a state grower group who may have to get board approval to submit a letter of support. If you wait until April, they may have to turn you down merely for timing reasons.

B. Exclusions

Grant funds may not be used to fund political activities in accordance with provisions of the Hatch Act (5 U.S.C. 1501-1508 and 7324-7326).

C. Application Due Date

WI DATCP must receive completed applications no later than **5:00 p.m. on Friday, April 15, 2016**. Applications received after the deadline will not be accepted. Changes to your application or additional submissions will not be allowed unless specifically requested by the review committee. It is highly recommended you request and receive confirmation your application was received on time.

D. Contact Information

Applications must be emailed to: juli.speck@wi.gov
For questions contact Juli via email or at 608-224-5134.

E. Specialty Crop Block Grant Program Checklist

Each submission must use the application format provided in **MS Word** which includes:

- Cover Page (electronic signature is acceptable)
- Complete Project Proposal that details:
 1. Project Description
 2. Project Purpose
 3. Project Beneficiaries
 4. Project Continuation Information
 5. Other Project Funding
 6. External Project Support
 7. Expected Measurable Outcomes
 8. Work Plan
 9. Budget Summary and Narrative
- Letters of Support

III. Grant Awards and Reporting

A. Application Evaluation Process

All applications will be reviewed by a team of WI DATCP and external reviewers after the grant application submittal deadline. The external review committee is made up of growers, industry, universities, public agencies and representatives from non-profits with an interest and expertise in specialty crops and agricultural systems. Applications are evaluated on the merits of the proposals based on the scoring criteria listed on the last page of the RFP. Final decisions may include other factors such as proposal priorities submitted by applicants, total amount of funding each applicant, crop and/or industry is receiving, geographic location of project beneficiaries, and past recipient performance on previous Specialty Crop Block Grants.

Applicants will be notified during the review process if adjustments to the application's scope of work and/or project budgets are necessary. Applicants will be notified by WI DATCP after the review process whether or not the proposal was selected for submission to USDA. Proposals that are approved by WI DATCP will be included in the Wisconsin State Plan which will be submitted to USDA AMS by July 7, 2016 for approval.

B. Notification of Award

Upon approval of the Wisconsin State Plan by USDA AMS, applicants will be notified in writing as to whether or not they received a grant award. Successful applicants will also be sent a Grant Award Agreement to sign. WI DATCP anticipates that grant awards and notification will be made in October and November of 2016.

C. Grant Award Agreement and Payment

Prior to beginning work on the proposed project or spending any funds, each successful applicant will be required to sign a Grant Award Agreement with the WI DATCP indicating their intention to complete the proposed tasks and authorizing WI DATCP to monitor the progress of the proposed project.

Grant Award Agreements must be signed and returned to WI DATCP within 30 days of receipt. Failure to submit an executed copy of the Grant Award Agreement within 30 days of receipt may result in the loss of awarded grant funds, unless the delay is approved by WI DATCP.

Requests for reimbursements will be accepted monthly. Each reimbursement request must include an itemized invoice, documentation of the work, and proof of paid expenses. Itemization shall include the purpose, amount and date incurred.

To receive reimbursement, grantees must provide assurance that the work has been completed (i.e. include receipts, paid invoices) and clearly outline expenditures on the Request for Reimbursement Form. Twenty percent of the total grant funds will be retained until receipt of the completed final report including receipts for all expenditures.

D. Reporting Requirements

WI DATCP reserves the right to modify reporting requirements during the course of the project. All progress and final reports must be submitted using the required format.

Progress Reports – Each grantee is required to submit a progress report once a year during the grant period, usually at the end of September or October. These reports shall summarize project activities and progress made since the last report submitted, timeliness of project (ahead or behind proposed timeline), externalities that effected progress/delays, expectations for the next period and a summary of costs and reimbursement requested. WI DATCP reserves the right to adjust report dates.

Final Reports - A **final performance report** will be required within 60 days following the end date of the grant agreement. The final report will be posted on the USDA-AMS and WI DATCP web sites and is important for sharing project findings with Federal and State agencies and the public. In addition to the final project report, WI DATCP reserves the right to conduct a follow-up survey of funded projects in order to determine long-term impacts of the project.

Reporting Compliance – Applicants who do not submit progress and annual reports on time, and/or submit incomplete reports, will be required to return all previously disbursed funds to WI DATCP, and or may be removed from future funding opportunities.

Budget Adjustments - If a material change (20% or greater) in the budget is needed during the project period, a written request must be made to WI DATCP to reallocate budget funds between budget categories. However, the total budget amount as dictated by the approved grant award cannot be adjusted.

**Wisconsin
