

Laboratory of Genetics Faculty Candidate

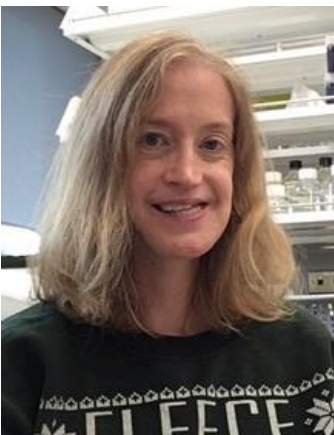

The cell biology of neuronal agelessness

Thursday, February 27, 2020 @ 10:30 AM
Room 1111 Genetics/Biotech, 425 Henry Mall

Claire Richardson

Postdoctoral Researcher in in the Biology Department at Stanford University

Dr. Richardson received her B.A. from Carleton College in Northfield, Minnesota, then moved to MIT for her Ph.D. training with Prof. Dennis Kim in the Biology Department. She is currently a postdoctoral researcher in the laboratory of Prof. Kang Shen in the Biology Department at Stanford University, where she studies neuron cell biology and how it is regulated by animal aging in *C. elegans*.

Host: Aki Ikeda
